

Easy access to your personal and family immunization records

Track future shots, access vaccine forms, add family to a shared Docket® account, and more.

1. Set-up your account.

Download the *free* Docket® app. Sign-up with email, Apple, or Google.

2. Search state registries.

Note: your first name, last name, date of birth, and legal sex must match your state immunization record *exactly*. In addition, your record on file with the state must contain a valid email or phone number.

3. Manage your records.

Back-to-School Forms

Tap the standard share icon next to your name to access a PDF record. Email, text, print, and directly from your phone.

Immunization Reminders

Enable notifications to receive emails and/or homescreen alerts when you or a loved one are due for a recommended immunization.

Add family members

Tap the plus (+) icon on the Immunization Search History screen to add your family to a shared Docket® account.

Easy Record Refresh

Got a new shot? Drag and release to refresh your records. Your new shot will appear automatically if it was correctly reported to your state's immunization registry.

Where is Docket® supported?

Docket® is available to residents of Alaska, D.C., Idaho, Maine, Minnesota, Missouri, New Jersey, North Dakota, Utah, and Wyoming. Coming soon to more states.
